| GL19    | North Eastern Railway lamp stem  | 1.50  |

| Cat No. | <b>1/43 Scale Miniatures - Motor Racing Figures</b>   | £each |
|---------|---|-------|
|         | The seated drivers are designed to fit into as many existing 1:43 scale racing cars as possible, by leaving out or removing the complete seat unit provided in the kit and replacing this with the appropriate driver. Sufficient length of leg has been modelled on the figures to enable these to be cut to length to avoid internal obstructions. Use of blue tack is recommended for securing position / height adjustment as required. |       |
| MO1     | 1930's standing driver (soft helmet)  | 3.00  |
| MO2     | 1950's standing driver (with leather helmet)  | 3.00  |
| MO3     | 1980's standing driver (holding helmet, under left arm)   | 3.00  |
| MO4     | Seated 1930's driver (includes seat back and separate arms)   | 3.00  |
